

Learn to Fly

Avia Aviation is proud to provide individualised flight training in our modern, technically-advanced fleet, including aircraft equipped with a parachute! Also, most of our aircraft are air conditioned.

From zero experience, through to the achievement of your Private Pilot Licence, our instructors and staff will ensure your goals are met every step of the way.

RECREATIONAL PILOT LICENCE

This is your first Pilot Licence (RPL) where you learn to fly from the very beginning. No experience is necessary! This licence allows you to fly your friends and family around the local area.

PRIVATE PILOT LICENCE

Your Private Pilot Licence (PPL) removes the local restrictions and allows you to fly your friends and family anywhere in Australia. Imagine trips to Uluru, Hobart, Sydney Harbour or Echuca for lunch – the possibilities are endless!

FLIGHT TESTS

Flight Tests are charged using the Private Hire Schedule plus Flight Examiner charge and administration costs.

NOTES

- Effective October 2023
- All prices include GST and subject to change without notice
- All rates are per hour (except trial introductory flights)
- Aircraft rate is charged from engine start to engine stop, includes instructor (on board or supervising), fuel, BOSE headset, life jackets, en-route navigation charges and all landing fees
- Flight Tests are charged using the Private Aircraft Hire method, plus Flight Examiner fee and an administration fee
- Simulator rate includes instructor
- Instructor Ground Time / Briefing / Tuition is charged for time engaged with instructor (including lesson time when engine is not running)
- Cancellation fee of one hour instructor time applies if event cancelled within 24 hours

AVIA 

Advanced Flight Training

Whether you want to fly a more advanced aircraft, fly at night, get above the clouds or turn your passion into a career, Avia Aviation cater to your individual needs at every stage. Through continuous improvement and engagement with our experienced staff and instructors we make each of our clients a safer pilot by offering;

- Cirrus Transition Training
- Avia Cirrus CAPS Training (Simulator)
- Night VFR Rating
- Instrument Rating
- Private Instrument Rating
- Commercial Pilot Licence
- Multi-engine Class Rating
- Instructor Rating

We also offer official Cirrus training certificates from the only Platinum Cirrus Standardised Instructor Pilot in Melbourne.

FLIGHT TESTS

Flight Tests are charged using the Private Hire method plus flight examiner charge and administration costs.

FLIGHT REVIEW - ADMINISTRATION

Flight reviews are charged at the applicable Instructor ground time and the aircraft dual rate. Additionally, a one-off administration charge is applicable.
